## **Wisconsin Department of Natural Resources**

# **2010 Wisconsin Deer Management Information Meetings**

The 2010 Wisconsin Deer Management Unit information meetings will be held around the state from March 8-18. All meetings will open with a 15-minute video hosted by Scott Craven of the University of Wisconsin who will lead an informal round table discussion on emerging harvest patterns, unit-specific management, hunter surveys and a CWD update. Attendees will also learn about preliminary deer population estimates, possible deer hunting season structures for 2010, and unit level CWD status and historical perspectives of deer management. Some new DNR communications tools will be announced and attendees will learn more about how they can be involved in the research initiatives. For information about an individual meeting, contact the DNR wildlife staff listed for each meeting.

### **NORTHERN REGION**
